

**The ESG data
intelligence solution**
your bank has been looking for

A gamechanger in ESG data collection and assessment

DPXesg is the latest addition to Brilliance Financial Technology's portfolio of digital banking solutions

Banks must now acquire robust intelligence into the rapidly evolving challenges faced by their clients in environmental, social impact and corporate governance issues. In particular, banks need to gain actionable insight into their client's existing ESG status and their future plans in order to manage commercial risk and maintain competitive advantage.

As an integral part of the pricing, new product and decision making process, **DPXesg** will ensure that the bank's portfolio is aligned to a more sustainable and profitable future.

Make your bank's commercial decisions ESG confident with **DPXesg**

- **DPXesg** is a solution for global and regional banks covering institutional, corporate and SME lending
- Designed as a flexible solution allowing for integration with multiple ESG data sources. Including targeted screening capability, integral approval workflow, and business ownership utilising "no-code" configuration tools
- Its configurable framework is designed to reflect the bank's unique ESG policies, lending criteria, capital allocation strategies and ESG risk appetite
- Smart, tailored, rules driven ESG assessments captured during client onboarding, annual reviews and at point of deal origination
- **DPXesg** is a single ecosystem to better understand and act on ESG risk, bringing together ESG scoring and assessments, pricing, profitability analysis and portfolio management.

Contact us to find out more about how DPXesg can make your organization ESG confident.
